

Vehicle make:

VW

Engine type:

1.4 – 2.0 MP9 1996 onwards

Cautions:

This drawing is for doing direct ignition timing control. The working map is just a starting point and still needs to be tuned for your vehicle

ECU location:

On left side under plastic wiper mechanism cover.

Special Notes:

Download correct program and reset timing after download
Green & White wire may also be brown & red.

Unichip version:

Q
